Deciphering a full page from Voynich Manuscript

15v

Image ID: 1006103

This is a literal translation of this page from left to right:

Peppermint inhalation helps(improve) sluggishness of the eyelids and relieve over-eating.

Mint formula (the word mint is written as two words to indicate that it is a formula and next to the word (formula) drew a snake to indicate that it is a medicine formula) Put wet cut mint (may mean river mint) in a small bowl with Plectranthus barbatus and before going to bed, take a dose (helps) brain intelligence.

Throat ease (swallowing) medicine, Throat capacity (Useful for sore throat)

Neglecting semen (Prevents women from getting pregnant) for women before intercourse.

It precedes illness (for prevention) by drinking a cup of mint with the same amount of Plectranthus barbatus, It helps expel worms.

Artemisia with Rosa damascena prevent blood diseases.

Surah Ar-Rahman is useful for protection and keep away the curse of people.

The seven Ha-Mim Surah(seven Surahs that begin with two letters, which are Ha Mim)are a cure for drowsiness.

There might be errors because the word may have more than one meaning and I chose the meaning that is closest to the context. However, the context also has more than one possible meaning.
